2016

MESSAGE FOR NEW YEAR 2016

✦ LET US REFRESH OUR MEMORIES – LET US ENRICH OUR PERSPECTIVES

Dear Sisters and Brothers, Comrades and Friends,

- ✦ Despite the extraordinary material development through successive technological revolutions, the basic imperative to work is still with us in the contemporary world. Fundamental human needs still go unmet and the 'war on wants' is unfinished because poverty persists. A large part of the global workforce is still engaged in subsistence production.
- ✦ Therefore, we proceed with profound solidarity and support to all people involved in struggles in defence of their Rights, Dignity, Health, Safety, against poverty, inequalities, unemployment, environmental degradation and for a world based on peace, justice and equality. Until we, as a society, start becoming morally responsible towards women, there's no reason to celebrate women's day.
- ✦ Radical transformation towards the New Economic Order, built on certain principles, viz, economic justice, equitable development, peoples participation in the shaping of economic policy, food and energy sovereignty, universal access to essential services and public utilities, protection and promotion of human rights, usage of industrial policy for creating purchasing power of the people, for ensuring living wage and protection and promotion of jobs, shall be our cherished goals.
- ✦ We respect all - We suspect all. Needs and grievances of the people in a democracy can't be met by repression of their manifestations as has been done, but by remedying the causes which underline them. Believe you can and you're half way there.
- ✦ The International Labour Organisation (ILO) will mark its centenary in 2019. The All India Trade Union Congress (AITUC) will celebrate its centenary in 2020. The World Federation of Trade Unions (WFTU) has just completed 70 years. Far reaching and extensive expectations are expected to emerge amongst the toiling masses. New Tasks and newer goals with specific action plans with have to be set, to create another, better world sans exploitation of any sort.
- ✦ Having been a (small) part of the movement over the years since the early sixties, and having undergone challenging experiences in the process, it is incumbent to re-dedicate towards the future historic duties, at the dawn of the New Year (even if one chooses not to hold any official positions).
