The ITUC's Provocative Statement for the Workers Of Greece

In a provocative statement of, so called “solidarity”, to the Greek Workers, the ITUC, the notorious mechanism of the Multinationals, calls the workers of Greece to Strike on December 8 under the demands of “*return to growth(of the economy)*”. They want the workers to demand more measures in support of the multinationals, to support the competitiveness of the capital. They want the workers to sacrifice their needs for the profits of the business groups.

The ITUC, also tries to erase the role of imperialist organizations, such as the IMF, by claiming that “*The IMF seems to have little if any understanding of what is really happening in Greece and indeed in the world in general*”.

The ITUC bureaucrats, who only in name they represent workers, who would not recognize a strike even if they were in front of it, they prefer not to see the huge profits of the multinationals and business groups in Greece. Profits that resulted from the brutal exploitation of the workers. Profits that came after the imposition of the policies, which were imposed specifically to safeguard the profits of the multinationals.

The ITUC wants to hide that 66% of new jobs in Greece are flexible, part time, limited time contracts, with part salary and expiration date, exactly because of the so called “best European practices”, which are the policies of the EU and are supported and promoted together by the EU, the Greek Government, the Employers and the ITUC-ETUC.

The ITUC wants to hide that, based in this context the Government of SYRIZA in Greece imposes the free activity of the slave trade-outsourcing companies, it legalizes employers’ “lockout” and attacks trade union rights and freedoms, the right to Strike.

The ITUC “forgets” that it was its affiliate, the GSEE in Greece that cosigned the 25% cut of the minimum wage!

The ITUC, in order to satisfy the interests of the imperialist organizations, multinationals and Governments, wants to play games on the backs of the workers of Greece.

The working class of Greece will give a strong response to the plans of the employers, the EU, the IMF and the yellow unions!

The class trade union movement of Greece will Strike on December 8 under the demands for the satisfaction of the contemporary needs of the working class, with the banners of PAME and WFTU.

Athens, December 7, 2016
