Let's come together to call for improved working and learning conditions. Contract negotiations begin soon, and we invite you to join us as we combat surging class sizes, workload creep, & low morale.

Currently in the early stages of CSEA statewide contract. I encourage all labor unions to come out November 17th and stand united. Fighting for hazard duty pay, increase in location pay and respectable wage increase.  
- CSEA

GSEU is continuing our Living Wage Campaign to achieve fair wages for all graduate students. We are waiting for the administration's offer that we will receive on November 19th. Providing a living wage to graduate workers is vital to the quality of instruction and research at SBU.  
-GSEU

The HSC is involved to display solidarity with the campus labor as well as to give voice to our members on east campus.
